June 2nd –3rd Putman Park

2nd Annual Penske Corvette & Camaro Club Appreciation Car Show: Penske will again sponsor an all Corvette and Camaro car show for the two clubs they sponsor. The date has not yet been determined so stay tuned but it will probably be in June. Greg Bowron is making plans with Matt Reiman for the event and a sign up sheet will be circulated at the meetings. We will need some club volunteers to help with registration that day. Penske will have the hot dog cart and supply soft drinks and will award trophies for the cars shown. CORVETTES & THE LIGHTER SIDE:

Idle Thoughts Of A Retiree's Wandering Mind: I planted some birdseed. A bird came up. Now I don't know what to feed it *** I had amnesia once---or twice *** I went to San Francisco. I found someone's heart. Now what?*** Protons have mass? I didn't even know they were Catholic. *** All I ask is a chance to prove that money can't make me happy *** If the world were a logical place, men would be the ones who ride horses sidesaddle. *** What is a "free" gift? Aren't all gifts free? *** They told me I was gullible and I believed them. *** Teach a child to be polite and courteous in the home and, when he grows up, he'll never be able to merge his car onto the freeway. ***Experience is the thing you have left when everything else is gone. ***The nice thing about egotists: they don't talk about other people. *** My weight is perfect for my height--which varies. *** I used to be indecisive. Now I'm not sure. *** How can there be self-help "groups"? *** If swimming is so good for your figure, how do you explain whales? ***Is it me --or do buffalo wings taste like chicken?

The Devil made me do it: A few minutes before the church services started, the congregation were sitting in their pews and talking. Suddenly, appeared at the front of the church. Everyone started screaming and running for the front entrance, trampling each other in a frantic effort to get away from the evil incarnate. Soon the church was empty except for one elderly gentleman who sat calmly in his pew without moving, seemingly oblivious to the fact that God's ultimate enemy was in his presence. So Satan walked up to the man and said, 'Do you know who I am?' The man replied, 'Yep, sure do.' 'Aren't you afraid of me?' Satan asked. 'Nope, sure ain't.' said the man. 'Don't you realize I can kill you with one word?' asked Satan. 'Don't doubt it for a minute,' returned the old man, in an even tone. 'Did you know that I can cause you profound, horrifying AGONY for all eternity?' persisted Satan. 'Yep,' was the calm reply. 'And you are still not afraid?' asked Satan. 'Nope,' said the old man. More than a little perturbed, Satan asked, 'Why aren't you afraid of me?' The man calmly replied, 'Been married to your sister for 48 years.'

Government in action? (D Pacetti) A DC 'airport ticket agent' offers some examples of dealing with elected folks and their representatives: 1. A New Hampshire Congressman asked for an aisle seat so that her hair wouldn't get messed up by being near the window on an airplane! 2. I got a call from a Kansas Congressman's staffer, who wanted to go to Cape Town. I started to explain the length of the flight and the passport information, and then he interrupted me with, "I'm not trying to make you look stupid, but Cape Town is in Massachusetts." Without trying to make him look stupid, I calmly explained, "Cape Cod is in Massachusetts, Cape Town is in South Africa." His response -- click. 3. A senior Vermont Congressman called, furious about a Florida package we did. I asked what was wrong with the vacation in Orlando. He said he was expecting an ocean-view room. I tried to explain that's not possible, since Orlando is in the middle of the state. He replied, 'Don't lie to me! I looked on the map, and Florida is a very THIN state!!' 4. I got a call from a lawmaker's wife who asked, "Is it possible to see England from Canada?" I said, "No." She said, "But they look so close on the map" 5. An aide for a cabinet member once called and asked if he could rent a car in Dallas. I pulled up the reservation and noticed he had only a 1-hour layover in Dallas ... When I asked him why he wanted to rent a car, he said, "I heard Dallas was a big airport, and we will need a car to drive between gates to save time." 6. An Illinois Congresswoman called last week. She needed to know how it was possible that her flight from Detroit left at 8:30 a.m., and got to Chicago at 8:33 a.m. I explained that Michigan was an hour ahead of Illinois, but she couldn't understand the concept of time zones. Finally, I told her the plane went fast, and she bought that. 7. A New York lawmaker, called and asked, "Do airlines put your physical description on your bag so they know whose luggage belongs to whom?" I said, 'No, why do you ask?' He replied, "Well, when I checked in with the airline, they put a tag on my luggage that said (FAT), and I'm overweight. I think that's very rude!" After putting him on hold for a minute, while I looked into it. (I was dying laughing). I came back and explained the city code for Fresno, Ca. is (FAT - Fresno Air Terminal), and the airline was just putting a destination tag on his luggage. 8. A Senator aide called to inquire about a trip package to Hawaii. After going over all the cost info, she asked, "Would it be cheaper to fly to California and then take the train to Hawaii?" 9. I just got off the phone with a freshman Congressman from Ala. who asked, "How do I know which plane to get on?" I asked him what exactly he meant, to which he replied, "I was told my flight number is 823, but none of these planes have numbers on them." 10 A Senator Dianne Feinstein called and said, "I need to fly to Pepsi-Cola, Florida. Do I have to get on one of those little computer planes?" I asked if she meant fly to Pensacola and fly on a commuter plane. She said, "Yeah, whatever, smarty!" 11 A La. Senator called and had a question about the documents she needed in order to fly to China. After a lengthy discussion about passports, I reminded her that she needed a visa. "Oh, no I don't. I've been to China many times and never had to have one of those." I double-checked and sure enough, her stay required a visa. When I told her this she said, "Look, I've been to China four times and every time they have accepted my American Express!" 12 A New Jersey Congressman called to make reservations, "I want to go from Chicago to Rhino, New York." I was at a loss for words. Finally, I said, "Are you sure that's the name of the town?" 'Yes, what flights do you have?' replied the man. After some searching, I came back with, "I'm sorry, sir, I've looked up every airport code in the country and can't find a rhino anywhere." "The man retorted, "Oh, don't be silly! Everyone knows where it is. Check your map!" So I scoured a map of the state of New York and finally offered, "You don't mean Buffalo, do you?" The reply? "Whatever! I knew it was a big animal."

If you would like to share a story and send it to us (at ndirishr1@hotmail.com or corvetteindynewsletter@hotmail.com) we would like to run a new story each newsletter. Suggestions would include 1. A special project or work that you had done to your Corvette such as modifications, renovations, restoration, maintenance, etc. 5. A new or recent trade or purchase of a Corvette 6. A funny experience or special memory involving your Corvette 7. A tip on caring for or using your Corvette that other members might learn from. I'm sure there are other article ideas that may come to mind and all are very welcome! Phone Scam: One of my sisters recently emailed the following warning: "Just wanted to let you know that this scam has reached our area. Jeff and I have received calls similar to the one described below. The caller is very persistent and has called 4 times since Wed." *Residents from the Sunshine Coast have reported a telephone-based scam, which involves a group claiming to be from an online computer company cold calling victims at home, asking them to log onto their computers. Upon doing so, victims are requested to run programs that give the impression there is something wrong with their computers. The offenders then offer to sell the victims software they claim will fix their computers, however victims are unknowingly downloading software which trawls the computer looking for personal information (including credit card details) which is then sent to the offenders. The offenders are said to be aggressive and usually hang up when challenged. Scammers are also making calls to potential victims indicating they work for Microsoft and need to gain remote access to the victim's computer to fix a bug in the system. "Unwary victims who provide this remote access are literally handing their computer and control of their computer to offenders who could use it to steal their personal and financial information, plant key logger Trojans (software planted on your system to record keystrokes such as passwords or log ins) or use the computer to attack other machines or systems," Detective Superintendent Brian Hay of the State Crime Operations Command Fraud and Corporate Crime Group said.*
